

## HIGHTEC 2-T SCOOTER

Synthetic, high-performance engine oil for air-cooled/water-cooled 2-stroke engines. Eminently suitable for mixed and separated lubrication systems.

### Description

HIGHTEC 2-T SCOOTER is a 2-stroke, high-performance engine oil produced using selected mineral and synthetic base oils. It contains a low-ash additive composition and combusts, leaving almost no residues behind. This prevents spark plug fouling and deposits in critical areas such as piston rings and outlet ports, and thus ensures a long service life of the engine.

### Application

HIGHTEC 2-T SCOOTER can be used for multi-functional purposes in air-cooled and water-cooled 2-stroke engines. It is suitable for both separate and mixed lubrication. During mixed lubrication, the mixing ratio must be observed in accordance with the engine manufacturer's specifications.

### Equivalent quality in accordance with EU-law as per

- API TC (TSC-3)
- ISO-L-EGD (low smoke)
- JASO FC/FD

### Advantages

- Outstanding wear protection
- Virtually residue-free combustion
- 'Low smoke' formulation
- Reduced deposits on piston rings, outlet ports and spark plugs
- Multi-functional application possibilities
- Suitable for air-cooled and water-cooled 2-stroke engines
- Suitable for both separate and mixed lubrication

## Mixing table

mixing ratio	2-stroke oil	fuel
1:50	20 ml	1 l
1:33	30 ml	1 l
1:25	40 ml	1 l
1:20	50 ml	1 l
1:50	100 ml	5 l
1:33	150 ml	5 l
1:25	200 ml	5 l
1:20	250 ml	5 l

## Typical characteristics

Property	Method	Unit	Value
Density at 15 °C	ASTM D-7042	g/ml	0.864
Kinematic viscosity KV 40	ASTM D-7042	mm <sup>2</sup> /s	57,5
Flash point	ASTM D-92 / DIN EN ISO 2592	°C	132
Pour point	ASTM D-97 / DIN EN ISO 3016	°C	-32
Color		visual	amber
