

## HIGHTEC GTS SPEZIAL SAE 20W-50

Multigrade engine oil based on selected base oils of viscosity grade SAE 20W-50.

### Description

HIGHTEC GTS SPEZIAL SAE 20W-50 is a multigrade engine oil produced using selected base oils of SAE grade 20W-50. Ideally suitable for gasoline and diesel engines, with or without turbocharging.

### Application

HIGHTEC GTS SPEZIAL SAE 20W-50 is used in gasoline and diesel engines, with or without turbocharging, according to the manufacturer's specification. Due to its high viscosity, it is especially recommended for use at high ambient temperatures. It is not suitable for use in modern TDI or Common Rail diesel vehicles.

### Equivalent quality in accordance with EU-law as per

- API SF/CD
- CCMC D2/G2
- MIL-L-2104D

### Advantages

- Eminently suitable for turbocharged engines
- Prevention of adhesion, lacquering and coking of cylinders, pistons, valves and turbochargers
- Particularly suitable for use at high ambient temperatures
- Stable lubricating film, even with hot oil and under high loads
- High level of oxidation protection by means of selected base oils
- Proper functioning of hydraulic tappets (hydraulic valve clearance compensation)
- Miscible and compatible with conventional and synthetic engine oils. However, in order to exploit the full product benefits of HIGHTEC GTS SPEZIAL SAE 20W-50, a complete oil change is recommended.
