

## HIGHTEC PREMIUM CLEANER ENGINE

The professional treatment for engines. For professional use in workshops only.

### Description

HIGHTEC PREMIUM CLEANER ENGINE is an exclusive high-performance additive that is used exclusively in ROWE partner workshops and in combination with our high-quality lubricants that are '100% Made in Germany'. It has been specially developed for the requirements of professional users and is powerful, efficient and uncompromisingly effective. Perfectly tailored to professional maintenance intervals, it delivers maximum effect with minimum effort. Easy to use, with no additional work required, it ensures thorough cleaning of the entire oil circuit – quickly, safely and efficiently.

### Application

The product must only be used in a specialist workshop.  
Dosage: 50 ml HIGHTEC PREMIUM CLEANER ENGINE per 1 litre of engine oil.

### Advantages

- Maximum cleaning performance – before the oil change
- Deep cleaning for the engine
- More power, fewer emissions
- Efficient & workshop-friendly

### Recommendation

Recommended for use with every workshop service.
