

## HIGHTEC BIO HLP 46 S

Environmentally-friendly, readily biodegradable hydraulic oil based on synthetic esters for all hydraulic systems.

### Description

HIGHTEC BIO HLP 46 S is an environmentally safe alternative to mineral oil-based hydraulic oils. The product is readily biodegradable according to MITI. It is insoluble in water and is largely held in the earth's upper layers after leaks or oil spills, such as when oil leaks from a broken pipeline, and rapidly degraded there.

### Equivalent quality in accordance with EU-law as per

- ISO 15380

### Advantages

- Very high viscosity index, multigrade characteristics
- Very high flash point
- High operating temperatures of up to 130°C at the upper limit
- Readily biodegradable
- Environmentally-friendly

### Recommendation

HIGHTEC BIO HLP 46 S should be used wherever there is a risk of leaking hydraulic fluid entering the groundwater or wastewater. This includes all devices that operate in water purification and water protection areas or near surface water, such as: - Wastewater treatment plants - Dredging vessels and floating dredgers - Hydraulic units in woods and fields - Earth-moving machines in water catchment areas - Pipe jacking and tunnel boring - Watergate lock hydraulics and stream weirs. HIGHTEC BIO HLP 46 S can be used for any application where oils of the following grades are already in use: HLP 32, HLP 46, HLP 68, HVLP 46, HEES 46.

### Notes

- HIGHTEC BIO HLP 46 S is miscible with mineral oils. Store the product in a dry and frost-free environment.
