

## SYSTEMREINIGER

System cleaning agent for water-miscible cooling lubricants

### Description

SYSTEMREINIGER is a safe and fast-acting cleaning and disinfection product for all metal-working machines. SYSTEMREINIGER cleans and disinfects machinery, tanks and pipes as well as inaccessible places. It also efficiently removes dirt, yeasts, mould fungus, bacteria, old coatings of slime, greases, etc. SYSTEMREINIGER is free of secondary alkanol amines and biocides containing amines.

### Application

Add approximately 2% SYSTEMREINIGER of the cooling lubricant emulsion at least 8 hours before the planned regular cleaning or, when changing the cooling lubricant, at a suitable interval during the ongoing production depending on the load. The complete cleaning action is only accomplished if the cooling lubricant circulates through all working parts of the system. After the end of production, drain the heavily contaminated and dirty cooling lubricant emulsion and rinse the entire system thoroughly with clean water. For heavily soiled systems, increasing the dwell time to 24 hours is recommended.

### Advantages

- Very good rinsing effect
- Compatibility with all water-miscible cooling lubricants
- Low consumption
- High effectiveness
- Low-foaming

### Notes

- Storage:
- When stored in dry, frost-free rooms and in original, unopened containers the storage period is: 6 months
- Temperature range: 5-35°C

## Typical characteristics

Property	Method	Unit	Value
Color		visual	gelb / yellow
Density at 20 °C	ASTM D1122	g/ml	1.01
pH	-	-	leicht alkalisch (1:50)

These characteristics are typical for current production. The data does not constitute an assurance of properties or a guarantee of suitability for a specific application. Existing legal provisions and regulations that affect handling and usage of the products must be observed by the recipient of our products. ROWE products are continuously being developed. For this reason, ROWE retains the right to change all technical data in this product information at any time without prior announcement.
